

WELCOME TO

Your second home

el
Social

In this city where the bar is also a restaurant and a Café, having a favorite place is like having a second home. That is why El Social was born, here, we like to have birra (beer) with a boca (snack/appetizer) or vice versa, listen to good music and be the safe haven in Chepe (San José), where your most transcendental, trivial, popular and philosophical conversations hunt, grow and stay in history. We also do not care about looks or last names, as long as you have the Pura Vida attitude, you are one of US.

In 2008 three friends, who have known each other for over 10 years, decided to create El Social. A place that combines nostalgic nuances from the past with contemporary elements, resulting into a place for all tastes and ages.

We want to put together the flavors, habits and preferences that distinguish Costa Ricans. A space in (San Jose) that invites visitors to believe and be part of the city.

This building built in 1897, is the second oldest Cantina in Costa Rica. Also, at some point in time being a bar, a restaurant and a snack shop.

The name calls to find each other and reconnect as human beings. An invitation to socialize, share with our own and also with strangers. Here we don't have clients, we have friends.
